- **Programming Languages:** C, C++, Java, HTML, CSS, JavaScript

MULTIMEDIA EXPERIENCE

Motion Design Intern – **Diagonal Media**, New York, NY July - August 2024

- Designed and animated lower thirds that incorporated client branding in 5 different projects.
- Developed industry level editing and motion graphic techniques in Final Cut Pro & After Effects.
- Engaged in ideation sessions and generated feedback for in-progress projects.
- Archived and organized media for more efficient and convenient file storage.

Design Intern – **Rising Earth Production Council**, New York, NY August 2023

- Collaborated with an internship leader to develop a story for one of Rising Earth's sponsors.
- Successfully illustrated and designed 16+ slides that met the needs of their target audiences.
- Illustrated a social media post for the Rising Earth Instagram account to promote the elimination of the invasive Spotted Lanternflies.

Story Development Intern – **Rising Earth Production Council**, New York, NY July - August 2022

- Researched a local climate crisis issue on the air quality in the NYC subway systems to write, illustrate, and adapt into a short story graphic novel form suitable for social media platforms.
- Learned wilderness survival skills and connected with nature to develop stories.
- Collaborated with Rising Earth Staff to edit and develop graphic shorts.

PROJECT EXPERIENCE

Content Design – **Lostintheletters - Content Strategy (In Progress)**, Atlanta, GA February 2026 - Current

- Collaborated with a group of three, developing content and strategy for Lostintheletters, creative writing non-profit.
- Researched the feasibility of physical mail as a form of more personalized outreach according to client needs.
- Drafted flexible and easy to reuse designs in Canva for postcards and other content, such as social media posts.

Code Name: Brenda – **CinèInnovate Studios - Vertically Integrated Project (V.I.P)**, Atlanta, GA January - May 2025

- Learned lighting in Unreal Engine for a student-made animated short film.
- Designed and modeled neon lights for the film's 3D environment in Blender.
- Recorded helpful information and tips in documents for future V.I.P participants.

Rising Tides – **Storytelling for the Climate Crisis at the School of Visual Arts** - *New York, NY* January - May 2021

- Produced, wrote, and animated a short film on the climate crisis which was showcased at the SVA Theater to commence United Nations Climate Week.
